Re: C00366419, Nebraska Leadership Pac

Once again we have attempted to upload an amendment without success (see attached). We will continue to work with our vender and make another attempt to discuss the situation with your tech support department. We are assured that the problem is not on our end, and successfully uploaded the March 30, 2006 report. I will contact you after we talk to tech support. Meanwhile, I wanted you to have the amendment in written form (see attached).

Thank you
